JONATHAN JESHUA C. LANIBA | Full Stack Developer

coycoylaniba@gmail.com • +63 910-669-8047 • linkedin.com/in/coycoylaniba • @coycoylaniba

SUMMARY

Full stack developer with 5 years of experience developing web, mobile and desktop applications and always aiming to produce efficient, scalable and maintainable applications and satisfy client expectations. Proficient in JavaScript, TypeScript, Node.js, React, Next.js, React Native, SQL and Firebase.

WORK EXPERIENCE

Full Stack Developer | Side Projects

Nov 2018 – Present

I worked on commissioned and capstone side projects, starting when I was in 4th year college using different technologies like Laravel, CodeIgniter, WordPress, React, Next.js, React Native, Firebase, MySQL, and more.

Full Stack Developer | Leodus Tech

September 2025 – November 2025

I was tasked on API integration with a custom GPT and worked on third party app integrations with custom UI components using Tanstack Start, Better Auth, Convex, Shadcn UI (TailwindCSS) and more.

Full Stack Developer | Skyride Mobile App Solution Company

Jan 2020 – May 2025

I work together with a team in planning, development, delivery, and maintenance of web mobile applications, and deliver good IT services to each client. Primarily uses Next.js for web applications and React Native for mobile applications. We also use GCP and AWS for cloud services, NoSQL databases like Firebase and DynamoDB, and SQL databases like MySQL and PostreSQL.

Junior Developer | Employee of a Senior Developer

Mar 2019 – Oct 2019

My main task was converting PDF web designs into fully functioning HTML, CSS, JavaScript which are then used in a WordPress or Magento websites. Learning to build WordPress and Magento plugins and themes.

Former OJT | Skyride Mobile App Solution Company

Apr 2018 – May 2018

I worked with other OJTs in planning, development and deployment of the Behold Bohol WordPress website and helped make advertisement for the Behold Bohol App. I was one of the top performing OJTs and later got absorbed in the company.
